**IMPORTANT INFORMATION FOR COMPUTING
MANDATORY REMOVAL DATES (MRD)**

All courses incur a two-year obligation upon graduation. Therefore, all officers must have two years of service remaining according to their MRD and/or Active Federal Service (AFS) separation date.

Effective 1 October 1996, MRDs will be computed according to Title 10 of the US Code, Section 14507.

Lieutenant Colonels and below will be removed from the reserve active-status list (separated) under Title 10 Section 14507 on the first day of the month after the month in which the officer completes 28 years of commissioned service, unless sooner removed due to being twice non-select for promotion.

a. If an officer reaches age 60 before he/she completes MRD for years of commissioned service he will be removed the last day of the month in which he/she becomes 60 years of age.

b. If an officer has been selected for promotion, he will compute his MRD according to that next higher grade.

Colonels and above will be removed from the reserve active-status list (separated) under Title 10 Section 14507 on the first day of the month after the month in which the officer completes 30 years of commissioned service. If an officer reaches age 60 before he/she completes 30 years commissioned service he will be removed the last day of the month in which he/she becomes 60 years of age.

NOTE: Total commissioned service does not include breaks in service; however, it does include commissioned service in the IRR and other services (i.e., Navy, Air Force, Marine Corps, etc.).

NOTE:

If you were promoted to COL or selected for promotion to COL before 1 October 1996, or selected for promotion to COL by the 1996 COL AMEDD Board or COL APL Board, which were approved by the Secretary of the Army on 7 October 1996, all applicants must compute their Mandatory Removal Dates according to pre ROPMA rules.

If you need assistance, contact your Personnel Manager or Ms. Tina Zucol at the numbers on the basic memorandum.
